Dear Dothan and Montgomery Satellite Patients;

We have worked very hard to form and run our satellite programs. We are extremely happy with our results and appreciate your patience with us in making this program a success.

As you may know your lab and ultrasound information is faxed to our office and we manage your care as if you were in Mobile. Our doctors review each case and our nurses call you with your instructions. Office hours are Monday-Friday 8:00am to 4:00 pm. but we are available 24 hours a day 7 days a week for your questions.

Only on weekends and holidays are you required to come to Mobile for these services. Often your entire cycle is managed from your satellite office and since we receive no revenue from your lab and ultrasounds done at your satellite office we must charge a monitoring fee.

**These fees must be paid in full before another cycle can be started.**

**Monitoring fees are as follows:**

**Clomid "Serophene" plus ovulation tracking with ultrasound is \$50.00 per cycle.**

**Injectable Fertility Medications "Gonal-F" or "Follistim" with Lab and Ultrasound monitoring fee is \$180.00 per cycle.**

**If your cycle is cancelled due to an ovarian cyst your fee will be \$30.00 for either type of cycle.**

Sincerely,

  
George B. Inge, M.D.
